This MEDLARS indexing aid is intended primarily for MEDLARS Analysts at the National Library of Medicine and at MEDLARS and Indexing Centers. Indexing policies discussed in this brochure appear in the MEDLARS Indexing Manual. Terminology in indexing instructions appear also in the Integrated Authority File.

QV 02 3 Ja 70

abomasal displacement
a change in the position of the abomasum
Index ABOMASUM (IM) (68)
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) as applicable

acetabular dysplasia
see hip dysplasia, congenital, canine

acetonemia
Index ACIDOSIS (68)

AFRICAN HORSESICKNESS (C1,C15) 1970
syn. equine plague; pestis equorum
an insect-borne reovirus disease of equines; four forms of the disease occur, a pulmonary form, a cardiac form, so-called horsesickness fever, and a mixed form (MeSH definition)
Index REOVIRUS INFECTIONS *veterinary (IM) (68)
PERISSODACTYLA (IM) (68) or
HORSE DISEASES (IM) (68) as applicable

AFRICAN SWINE FEVER (C1,C15) 1970
syn. East African swine fever; wart hog disease; Montgomery disease; peste porcine Africaine
a generalized viral disease of swine. The disease which resembles hog cholera is caused by a DNA virus (MeSH definition)
Index SWINE DISEASES (IM) (68)
VIRUS DISEASES *veterinary (IM) (68)

air sac diseases
diseases of the air sacs (bronchial outpocketings) of birds
Index RESPIRATORY TRACT DISEASES *veterinary (IM) (68)
AIR SACS (IM) (68)
BIRD DISEASES (IM) (68) or
POULTRY DISEASES (IM) (68) as applicable

anemia, infectious equine
see EQUINE INFECTIOUS ANEMIA

bacillary hemoglobinuria
see hemoglobinuria, bacillary

bird pox
see FOWL POX

black disease
syn. infectious necrotic hepatitis
an infectious disease of sheep and occasionally of cattle, characterized by necrotic areas in the liver as the result of infection with Clostridium novyi. It is usually associated with the invasion of the liver with flukes
Index CLOSTRIDIUM INFECTIONS *veterinary (IM) (68)
LIVER DISEASES *veterinary (IM) (68)
SHEEP DISEASES (IM) (68) or
CATTLE DISEASES (IM) (68) as applicable

BORNA DISEASE (C1,C10,C15) 1970
a viral encephalomyelitis primarily of horses and sheep. It occasionally affects rabbits, cattle and deer (MeSH definition)
Index ENCEPHALOMYELITIS *veterinary (IM) (68)
VIRUS DISEASES *veterinary (IM) (68)
HORSE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) or
CATTLE DISEASES (IM) (68) or
RABBITS (IM) (68) or
DEER (IM) (68), as applicable

bovine epitheliosis
see malignant catarrh

bovine epizootic fever
see EPHEMERAL FEVER

canine endothelitis
see canine infectious hepatitis

canine infectious hepatitis
syn. hepatitis contagiosa canis; fox encephalitis; Rubarth's disease; canine endothelitis; canine virus hepatitis
an adenovirus infection of dogs and also foxes, wolves, coyotes, bears and other mammals characterized by signs varying from a slight elevation of temperature and congestion of the mucous membranes to severe general malaise. In foxes a meningoencephalitis frequently occurs
Index HEPATITIS, ANIMAL (68)

canine virus hepatitis
see canine infectious hepatitis

cat fever
see FELINE INFECTIOUS ENTERITIS

cat plague
see FELINE INFECTIOUS ENTERITIS

cerebrocortical necrosis
see polioencephalomalacia

congenital coxofemoral subluxation
see hip dysplasia, congenital, canine

congenital porphyria
see osteohemochromatosis

contagious pustular dermatitis
see ECTHYMA CONTAGIOUS

coronitis
an inflammation of the skin in the area where it joins the coronary border of the hoof or claw
Index HOOF AND CLAW (IM) (68)
HORSE DISEASES (IM) (68) or
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) or
SWINE DISEASES (IM) (68) as applicable

crop diseases
syn. ingluvial diseases
diseases of the crop of birds
Index CROP, AVIAN (IM) (68)
BIRD DISEASES (IM) (68) or
POULTRY DISEASES (IM) (68) as applicable

dermatitis, contagious pustular
see ECTHYMA CONTAGIOUS

diphtheria, fowl
see FOWL POX

distemper, feline
see FELINE INFECTIOUS ENTERITIS

East African swine fever
see AFRICAN SWINE FEVER

ECTHYMA CONTAGIOUS (C1,C15) 1970
syn. contagious pustular dermatitis; sore mouth
an infectious dermatitis of sheep and goats affecting primarily the muzzle and lips. It is caused by a poxvirus. Man is susceptible to the disease (MeSH definition)
Index SHEEP DISEASES (IM) (68) or
GOATS (IM) (68) as applicable
ECTHYMA *veterinary (IM) (68)
POXVIRUS INFECTIONS *veterinary (IM) (68)

edema disease of swine
syn. gut edema; stomach edema
an acute disease of young swine characterized by incoordination and edematious swellings of various tissues, but most significantly involving the cardiac region of the stomach and the mesenteric folds and coils of the colon (The Merck Veterinary Manual, 3rd ed, 1967) Toxins of Escherichia coli produce some of the outbreaks of this disease
Index SWINE DISEASES (IM) (68)
EDEMA *veterinary (NIM) (68)
GASTROINTESTINAL DISEASES *veterinary (IM) (68)

encephalitis, eosinophilic
a disease of swine, poultry, and wild birds that occurs when large amounts of sodium salts are consumed
Index ENCEPHALITIS *veterinary (IM) (68)
EOSINOPHILIA (NIM) (68)
SODIUM *poisoning (IM) (68)
SWINE DISEASES (IM) (68) or
POULTRY DISEASES (IM) (69) or
BIRD DISEASES (IM) (68) as applicable

encephalitis, fox
see canine infectious hepatitis

encephalomyelitis, avian
syn. epidemic tremor
a viral disease of birds that is transmissible through the egg
Index ENCEPHALOMYELITIS *veterinary (IM) (68)
ENTEROVIRUS INFECTIONS *veterinary (IM) (68)
BIRD DISEASES (IM) (68) or
POULTRY DISEASES (IM) as applicable

ENCEPHALOMYELITIS, ENZOOTIC, PORCINE (C1,C15) 1970
syn. Teschen disease; Talfan disease; poliomyelitis of swine; porcine encephalomyelitis; encephalomyelitis enzootica suum; Teschener Krankheit
a viral encephalomyelitis of swine (MeSH definition)
Index SWINE DISEASES (IM) (68)
ENCEPHALOMYELITIS *veterinary (IM) (68)
ENTEROVIRUS INFECTIONS *veterinary (IM) (68)

encephalomyelitis enzootica suum
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

encephalomyelitis, infectious of sheep
see louping ill

encephalomyelitis, ovine
see louping ill

encephalomyelitis, porcine
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

endothelitis, canine
see canine infectious hepatitis

enteritis, feline infectious
see FELINE INFECTIOUS ENTERITIS

enterotoxemia (C1,C15) (Prov) (70)
syn. pulpy-kidney disease; overeating disease; lamb dysentery; struck
intoxication of ruminants caused by toxins liberated by certain types of Clostridium perfringens in the alimentary tract
Index TOXEMIA *veterinary (IM) (68)
ENTEROTOXINS (NIM) (68)
CLOSTRIDIUM INFECTIONS *veterinary (NIM) (68)
SHEEP DISEASES (IM) (68) or
CATTLE DISEASE (IM) (68) as applicable

enzootic meningoencephalomyelitis
see louping ill

EPHEMERAL FEVER (C1,C15) 1970
syn. three day sickness; stiff sickness; bovine epizootic fever
an acute viral disease of cattle characterized by fever, stiffness, and lameness. The disease is caused by an apparently insect-borne unclassified virus (MeSH definition)
Index CATTLE DISEASES (IM) (68)
FEVER *veterinary (NIM) (68)

epidemic tremor
see encephalomyelitis, avian

EPIDERMITIS EXUDATIVE OF SWINE (C15) 1970
syn. porcine exudative epidermitis; seborrhea oleosa; impetigo contagiosa suis; non-specific "eczema"
an acute dermatitis involving the entire body surface of baby pigs. It is characterized by a wet, greasy skin covered with crusts of exudate. The etiology is unknown (MeSH definition)
Index SWINE DISEASES (IM) (68)
SKIN DISEASES *veterinary (IM) (68)

epidermitis, porcine exudative
see EPIDERMITIS EXUDATIVE OF SWINE

epitheliogenesis imperfecta
a congenital inherited condition in which an area of skin fails to develop. The condition occurs most frequently in calves, baby pigs, and foals. Most affected animals die within a few days
Index SKIN *abnormalities (IM) (68)
CATTLE DISEASES *familial and genetic (IM) (68) or
SWINE DISEASES *familial and genetic (IM) (68) or
HORSE DISEASES *familial and genetic (IM) (68) as applicable

epithelioma contagiosum
see FOWL POX

epitheliosis, bovine
see malignant catarrh

EQUINE INFECTIOUS ANEMIA (C1,C15) 1970
syn. swamp fever
an unclassified virus disease of equines characterized by intermittent fever, depression weakness and anemia (MeSH definition)
Index VIRUS DISEASES *veterinary (IM) (68)
HORSE DISEASES (IM) (68) or
PERISSODACTYLA (IM) (68) as applicable

equine plague
see AFRICAN HORSESICKNESS

estrous cycle
the whole sequence of changes in the reproductive organs and sexual behaviour of animals mediated through hormones
Index appropriate species (IM) (68)
ESTRUS (IM) (68)

exanthema nodylaris bovis
see LUMPY SKIN DISEASES

feline agranulocytosis
see FELINE INFECTIOUS ENTERITIS

feline distemper
see FELINE INFECTIOUS ENTERITIS

FELINE INFECTIOUS ENTERITIS (C1,C15) 1970
syn. feline panleukopenia; feline distemper; feline agranulocytosis; cat fever; cat plague; infectious enteritis of mink; virus enteritis of mink
a highly contagious DNA virus disease of the cat family and of mink characterized by fever, enteritis and bone marrow changes (MeSH definition)
Index ENTERITIS *veterinary (IM) (68)
LEUKOPENIA *veterinary (IM) (68)
VIRUS DISEASES *veterinary (IM) (68)
CAT DISEASES (IM) (68) or
MINK (IM) (68) as applicable

feline panleukopenia
see FELINE INFECTIOUS ENTERITIS

fetal mummification
conversion of the fetus within the uterus to a hard mass following fetal death
Index FETAL DEATH (68)

forage poisoning
see polioencephalomalacia

Founder pododermatitis
see laminitis

fowl diphtheria
see FOWL POX

fowl pest
see FOWL PLAGUE

FOWL PLAGUE (C1,C15) 1970
syn. fowl pest; peste aviare; klassische geflugelpest
a septicemic viral disease of chickens and turkeys. It may also affect water fowl and other birds. The disease is caused by a myxovirus (MeSH definition)
Index MYXOVIRUS INFECTIONS *veterinary (IM) (68)
POULTRY DISEASES (IM) (68) or
BIRD DISEASES (IM) (68) as applicable

FOWL POX (C1,C15) 1970
syn. bird pox; epithelioma contagiosum; fowl diphtheria; variola avium
a poxvirus infection of poultry and other birds characterized by the formation of wart-like nodules on the skin and diphtheric necrotic masses (cankers) in the upper digestive and respiratory tracts (Merck Veterinary Manual, 1967; MeSH definition)
Index POXVIRUS INFECTIONS *veterinary (IM) (68)
POULTRY DISEASES (IM) (68) or
BIRD DISEASES (IM) (68) as applicable

fox encephalitis
see canine infectious hepatitis

GASTROENTERITIS, TRANSMISSIBLE, OF SWINE (C1,C15) 1970
an unclassified virus disease of swine (MeSH definition)
Index SWINE DISEASES (IM) (68)
GASTROENTERITIS *veterinary (IM) (68)
VIRUS DISEASES *veterinary (IM) (68)

genes, histocompatibility
the hereditory units that control the reaction to tissue transplanted from another organism
Index GENES (IM) (68)
TRANSPLANTATION IMMUNOLOGY (IM) (68)
HISTOCOMPATIBILITY (NIM)

gut edema
see edema disease of swine

HEARTWATER DISEASE (C1,C15) 1970
a tick-borne septicemic rickettsial disease of cattle, sheep and goats. It is caused by Cowdria (Rickettsia) ruminantium (MeSH definition)
Index RICKETTSIAL DISEASES *veterinary (IM) (68)
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) or
GOATS (IM) (68), as applicable

hemoglobinuria, bacillary
syn. infectious icterohemoglobinuria; red water disease (In the U.S. red water disease is a synonym for bacillary hemoglobinuria while abroad the term red water disease frequently refers to babesiasis (piroplasmosis))
an infectious disease of cattle and sheep characterized by hemolysis, massive infarction of the liver, and hemorrhagic lesions caused by the toxin of Clostridium hemolyticum
Index HEMOGLOBINURIA *veterinary (IM) (68)
CLOSTRIDIUM INFECTIONS *veterinary (IM) (68)
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) as applicable

hepatitis, canine infectious
see canine infectious hepatitis

hepatitis, canine virus
see canine infectious hepatitis

hepatitis, contagiosa canis
see canine infectious hepatitis

hepatitis, infectious necrotic
see black disease

hip dysplasia, congenital, canine
syn. congenital coxofemoral subluxation; acetabular dysplasia
a congenital malformation of the coxofemoral articulation in dogs. It is primarily due to an abnormally shallow acetabulum
Index HIP DISLOCATION, CONGENITAL (IM) (68)
DOG DISEASES (IM) (68)

hoof diseases
diseases of the hoof in equines, includes sand crack, shoeing injuries, etc.; see also coronitis and laminitis
Index HOOF AND CLAW (IM) (68)
HORSE DISEASES (IM) (68) or
PERISSODACTYLA (IM) (68) as applicable

hyperderatosis
Index KERATOSIS *veterinary (68)

immunogenetics
the branch of genetics concerned with the inheritance of antigenic and other characters related to the immune response (Dorland's Medical Dictionary, 24th ed) e.g. the study of blood groups
Index GENETICS (IM) (68)
IMMUNOLOGY (IM) (68)

impetigo contagiosa suis
see EPIDERMITIS EXUDATIVE OF SWINE

infectious encephalomyelitis of sheep
see louping ill

infectious enteritis of mink
see FELINE INFECTIOUS ENTERITIS

infectious icterohemoglobinuria
see hemoglobinuria, bacillary

infectious necrotic hepatitis
see black disease

ingluvial diseases
see crop diseases

klassische geflugelpest
see FOWL PLAGUE

knopvelsiekte
see LUMPY SKIN DISEASE

lamb dysentery
see enterotoxemia

laminitis
syn. pododermatitis, Founder
inflammatory and degenerative changes in the laminae of the hoof or claw
Index HOOF AND CLAW (IM)(68)
HORSE DISEASES (IM) (68) or
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) as applicable

louping ill
syn. infectious encephalomyelitis of sheep; enzootic meningoencephalomyelitis; ovine encephalomyelitis; trembling ill
an acute viral meningoencephalomyelitis of sheep, that is transmitted by a tick. The disease occasionally affects other domestic animals and man
Index SHEEP DISEASES (IM) (68)
ENCEPHALITIS, TICK-BORNE *veterinary (IM) (68)

LUMPY SKIN DISEASE (C1,C15) 1970
syn. knopvelsiekte; exanthema nodylaris bovis
an infectious skin disease of cattle characterized by the appearance of nodules on all parts of the skin. The disease is caused by a poxvirus (MeSH definition)
Index CATTLE DISEASES (IM) (68)
SKIN DISEASES, INFECTIOUS *veterinary (IM) (68)
POXVIRUS INFECTIONS *veterinary (IM) (68)

LYMPHANGITIS, EPIZOOTIC (C1,C15) 1970
syn. pseudoglanders; pseudofarcy
a chronic suppurative dermatitis and lymphangitis of equine caused by the fungus Zymonema farciminosum (Histoplasma farcimonosa) (MeSH definition)
Index HORSE DISEASES (IM) (68)
LYMPHANGITIS *veterinary (IM) (68)
DERMATOMYCOSES *veterinary (IM) (68)

malignant catarrh
syn. malignant head catarrh; malignant catarrhal fever; bovine epitheliosis
a herpesvirus infection of cattle characterized by catarrhal inflammation of the upper respiratory and alimentary epithelia, keratoconjunctivitis, encephalitis and lymph node enlargement
Index HERPESVIRUS INFECTIONS *veterinary (IM) (68)
CATTLE DISEASES (IM) (68)

malignant catarrhal fever
see malignant catarrh

malignant head catarrh
see malignant catarrh

meningoencephalomyelitis, enzootic
see louping ill

Montgomery disease
see AFRICAN SWINE FEVER

myoclonia congenita
syn. trembles
a congenital disease of the nervous system of baby pigs that is characterized by clonic contractions of voluntary muscles
Index SWINE DISEASES *congenital (IM) (68)
NERVOUS SYSTEM DISEASES *veterinary (IM) (68)
MYOCLONUS *veterinary (IM) (68)

MYOSITIS, EOSINOPHILIC (C15) 1970
myositis characterized by an abundance of eosinophils in the exudate. It is most frequently observed in the bovine and occasionally in sheep and swine. A localized form of eosinophilic myositis occurs in dogs (MeSH definition; Runnels, Monlux & Monlux: Principles of Veterinary Pathology, 7th ed)
Index MYOSITIS *veterinary (IM) (68)
EOSINOPHILIA *veterinary (IM) (68)
CATTLE DISEASES (IM) (68) or
SWINE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) or
DOG DISEASES (IM) (68) as applicable

NAIROBI SHEEP DISEASE (C1,C15) 1970
an arbovirus infection of sheep and goats characterized by high fever and hemorrhagic-gastroenteritis. The disease is transmitted by a tick (MeSH definition)
Index ARBOVIRUS INFECTIONS *veterinary (IM) (68)
SHEEP DISEASES (IM) (68) or
COATS (IM) (68) as applicable

neorickettsiosis helminthoeca
syn. salmon poisoning
an infectious disease of canines in which the infective agent Neorickettsia helminthoeca is transmitted by a fluke having a snail-fish-dog life cycle. The disease is primarily characterized by fever and gastrointestinal disturbances
Index NEORICKETTSIA (IM) (68)
DOG DISEASES (IM) (68) or
appropriate species (IM) (68) as applicable
RICKETTSIAL DISEASES *veterinary (IM) (68)

non-specific "eczema"
see EPIDERMITIS EXUDATIVE OF SWINE

nymphomania
increased sexual drive in the female. It occurs primarily in cattle and horses and is usually associated with diseases of the ovaries
Index specific disease (IM) (68)
appropriate species (IM) (68) as applicable
OVARIAN DISEASES *veterinary (IM) (68) or
OVARIAN NEOPLASMS *veterinary (IM) (68) or
OVARIAN CYST *veterinary (IM) (68) as applicable

osteohemochromatosis
syn. porphyria; pink tooth; congenital porphyria
an inherited congenital defect of porphyrin metabolism in cattle and swine, characterized by excessive excretion of porphyrins in urine and feces, and deposition of porphyrins in tissues especially bones and teeth. Photosensitization occurs in affected cattle (Blood and Henderson, Veterinary Medicine, 2nd ed)
Index PORPHYRIA *veterinary (IM) (68)
CATTLE DISEASES *familial and genetic (IM) (68) or
SWINE DISEASES *familial and genetic (IM) (68) as applicable

over-eating disease
see enterotoxemia

ovine encephalomyelitis
see louping ill

panleukopenia, feline
see FELINE INFECTIOUS ENTERITIS

paralysis, Chastek
a nervous system disease of furbearing animals and cats that results from a deficiency in thiamine due to thiaminase present in raw fish
Index PARALYSIS *veterinary (IM) (68)
THIAMINE DEFICIENCY *veterinary (IM) (68)
MINK (IM) (68) or
FOXES (IM) (68) or
other species (IM) (68) or
CAT DISEASES (IM) (68), as applicable

paresis, spastic, bovine
hereditary spastic paresis in Holstein-Friesian cattle that is characterized by an excessive rigidity of one or both gastrocnemius muscles
Index CATTLE DISEASES *familial and genetic (IM) (68)
PARALYSIS, SPASTIC *veterinary (IM) (68)

peste aviare
see FOWL PLAGUE

peste porcine Africaine
see AFRICAN SWINE FEVER

pestis equorum
see AFRICAN HORSESICKNESS

pink tooth
see osteohemochromatosis

pododermatitis, Founder
see laminitis

polioencephalomalacia
syn. forage poisoning; cerebrocortical necrosis
a nervous system disease of cattle and sheep presumably related to feeding practices. Current research indicates that some of the lesions may be the result of imbalances in selenium and other tissue antioxidants
Index ENCEPHALOMALACIA *veterinary (IM) (68)
CATTLE DISEASES (IM) (68) or
SHEEP DISEASES (IM) (68) as applicable

poliomyelitis of swine
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

porcine encephalomyelitis
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

porcine exudative epidermitis
see EPIDERMITIS EXUDATIVE OF SWINE

porphyria
see ostenchemochromatosis

pseudofarcy
see LYMPHANGITIS, EPIZOOTIC

pseudoglanders
see LYMPHANGITIS, EPIZOOTIC

pseudorumination
the habit of reingestion of feces taken from the anus enabling the animal to obtain additional nutrients especially B vitamins. The habit is primarily found in rabbits
Index COPROPHAGIA (68)

pulpy-kidney disease
see enterotoxemia

red water disease
see hemoglobinuria, bacillary

Rubarth's disease
see canine infectious hepatitis

salmon poisoning
see neorickettsiosis helminthoeca

seborrhea oleosa
see EPIDERMITIS EXUDATIVE OF SWINE

sore mouth
see ECTHYMA CONTAGIOUS

steatitis
syn. yellow fat disease
a disease of mink and pigs caused by a deficiency of Vitamin E and/or selenium. The disease is characterized by a yellowish discoloration of the adipose tissues
Index VITAMIN E DEFICIENCY *veterinary (IM) (68)
SELENIUM (IM) (68)
MINK (IM) (68) or
SWINE DISEASES (IM) (68) as applicable

stiff sickness
see EPHEMERAL FEVER

stomach edema
edema disease of swine

stomatitis, vesicular
a RNA virus disease of cattle, swine, and horses characterized by the development of vesicles principally on the mucosa of the mouth and sometimes of the skin of the feet. A number of human infections have been recognized (The Merck Veterinary Manual, 3rd ed, 1967)
Index VIRUS DISEASES *veterinary (IM) (68)
STOMATITIS *veterinary (IM) (68)
CATTLE DISEASES (IM) (68) or
SWINE DISEASES (IM) (68) or
HORSE DISEASES (IM) (68) as applicable

struck
see enterotoxemia

swamp fever
see EQUINE INFECTIOUS ANEMIA

Talfan disease
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

Teschen disease
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

Teschener Krankheit
see ENCEPHALOMYELITIS, ENZOOTIC, PORCINE

three day sickness
see EPHEMERAL FEVER

trembles
see myoclonia congenita

trembling ill
see louping ill

variola avium
see FOWL POX

vesicular exanthema of swine
a picorna virus disease of swine characterized by hydropic degeneration of the oral and cutaneous epithelia
Index SWINE DISEASES (IM) (68)
VIRUS DISEASES *veterinary (IM) (68)
EXANTHEMA *veterinary (NIM) (68)

virus enteritis of mink
see FELINE INFECTIOUS ENTERITIS

wart hog disease
see AFRICAN SWINE FEVER

yellow fat disease
see steatitis
